Greetings for 1949

Howdy folks! It gives me considerable pleasure to present this, our third annual catalog of the world's finest tall bearded irises, to you. You will realize that the Creator certainly blessed this interior valley of the State of Washington with a soil and climate unsurpassed for iris growing when you look at the pictures of one-year plants in bloom on the preceding page. Yes, we divide them all each year so that we will have larger and better rhizomes to send to you. The slightly portly gentleman in the pictures is the writer, Jack G., and the nice lady is Jean, Mrs. Jack G. We both love the irises.

To those of you who have ordered from us in the past, thanks a million—I hope we may be able to continue to serve you for years to come. To those others who have not yet favored us with an order—do it now, you'll be agreeably surprised! By all means, stop and see the irises in bloom this year if you are in our part of the country, and to those of you who visit Portland and the AIS convention, we extend a special invitation, stop either coming or going, or both. No fancy display garden, just some fine irises in a commercial planting! Our garden is on North 16th Avenue, about two blocks north of Fruitvale Boulevard; directly in back of the furniture factory. If no one is in attendance, phone us at 3935.

A fine iris season to you! Sincerely,

JACK G. LINSE.

TERMS OF SALE

Cash with Order, check, draft, or money order. Residents of Washington State kindly add 3% sales tax.

Postage Prepaid on orders of \$3.00 or more. On smaller orders add 35c to cover packing and postage.

Shipment during the months of July, August and September.

No Substitutions unless second choice is given, and if stock is sold out, refund will be made promptly. We reserve the right to accept or refuse an order, or any part thereof, depending on the amount of stock on hand, and whether at shipping time it is in good condition to be sent.

CHOOSE YOUR OWN EXTRAS

Last year's policy of allowing our customers to choose their own extras was so popular that we are continuing it this season. On orders of \$10.00 or more you may select an additional one-third as extras, without charge. With a \$12.00 order choose \$4.00 worth of extras, for \$30.00 choose \$10.00 worth of extras, and so on. This covers every variety in our catalog, none reserved—however, list your extras separately and name several acceptable substitutes if you order after May 1st, for these new and scarce varieties sell out fast. To avoid disappointment, **order early!**

STATEMENT OF POLICY

We deprecate the "callous and careless" policy of many iris dealers in sending out under-sized and over-dried rhizomes that cannot possibly bloom or give a reasonable account of themselves for two years. Surely a gardener enthusiastic enough to pay the high prices asked for new irises is entitled to a better break, and we will give it to him, not just occasionally, but always. Every iris we ship will be locally grown, freshly dug with abundant roots, cured over night and shipped the following day. The size of the rhizomes shipped will leave nothing to be desired. The sure way to failure in any gardening is to start with poor plants! Easy Breeze rhizomes are the world's finest! **When it costs no more to have the best—why settle for less?**

POSITIVE MONEY BACK GUARANTEE

If upon receipt of your shipment you do not agree that it is **one of the finest you have ever had**, return all, or any part that is unsatisfactory at once, and we will refund the purchase price, plus return postage, on all such items, or replace at your option if stock is available. Our stock is State inspected, and guaranteed free from disease and insect pests, true to name, and to arrive in good growing condition anywhere within the United States or Canada. After safe delivery, we cannot assume responsibility for their growth, over which we have no control.

IRISES OF DISTINCTION

In our list the name of the variety will be followed by the name of the originator and the year of introduction—in parenthesis. This in turn will be followed by the highest award won (if any) from the American Iris Society, Dykes M. will signify the Dykes Medal; AM, the Award of Merit, and HM, Honorable Mention, and the year awarded, and last will come the height in inches as given by the originator, and the general description. It should be remembered that the height will vary under various conditions of soil and climate.

GOLDEN RUSSET (Hall 46) HM 47. 42". One of the largest irises known, and originally nicknamed "Jumbo" in the Hall garden. Good, in spite of its size, it has buds up to six inches long. Quite amazing! \$7.50

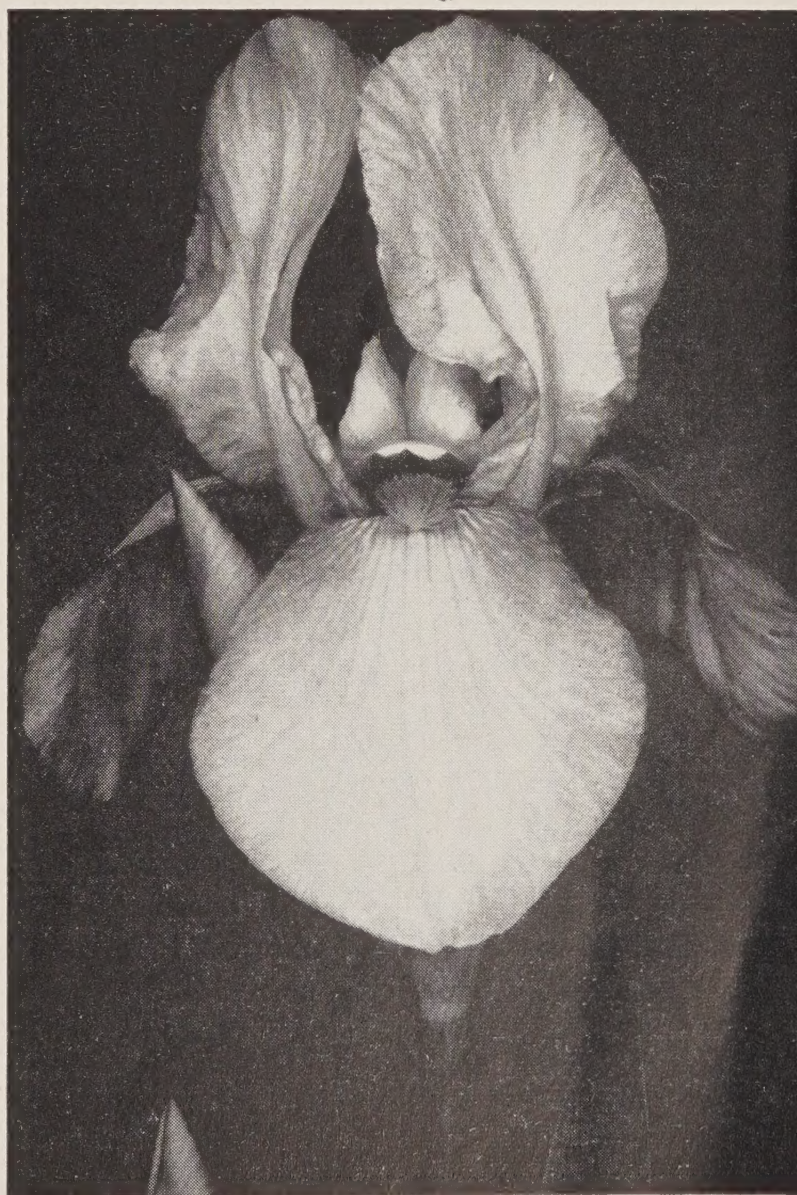

GRACE MOHR (Jory 35) AM 39. 48". Very large seedling of Wm. Mohr. Standards deep lavender-violet, veined deep manganese violet; falls lavender-violet veined cream. 75c

GREAT LAKES (Cousins 38) Dykes M. 42. 40". This Canadian blue is one of the very best, a clear light blue, flaring, regal and hardy. \$1.00

GYPSY BARON (Schreiner 42). 40". An interesting and very unusual plicata. Big, bold and tall, a very dark blue-purple, marbled rather than stitched in an allover pattern on a silvery white ground. \$1.50

\$1.00

KATHERINE FAY (Page 9)

O L A K A L A (Page 12)

MASTER CHARLES (Page 10)

MINUET (O. Jensen 43). 38". This, in a sense, constitutes a reintroduction, and probably is not available from any other source. This fine iris, through no fault of the originator, crept into the listings of a prominent iris dealer without formal introduction—and because it was entirely unknown and unsung, soon disappeared from commerce. By carefully conserving the increase from one rhizome we purchased in 1945, we now have enough stock to list. Minuet is a deep lavender self (Ridgway's Plate XXXVI) with broad standards, domed and firmly held, falls broad, rounded and flaring. A large tailored flower of excellent substance and candelabra branching, the best of its color that we have seen. See AIS Bulletin 78:22, July, 1940. \$3.00

MOUNTAIN SKY (Milliken 41). 38". Remarkably fine medium blue with a golden heart. 75c

MOUNT HERMON (Lowry 45) HM 45. 42". This big silvery white, flaring, ruffled and tall, is well liked on the East Coast. A vigorous grower. \$6.00

MULBERRY ROSE (Schreiner 41) AM 44. 40". Most unusual and lovely, something different in color—pinkish mulberry. \$1.25

NIGHTINGALE (Hall 42) HM 42. 36". Another new and novel color that is appealing, an absolute self of golden russet. \$1.25

PINK LACE (Sass 47). 36". Here is a very new pink from the Sassés. An orange pink with tangerine beard and pink buds, and an elegant grower. We believe this the tallest and best branched of the new pinks, and consider it a valuable one for breeding. Also—it is inclined to rebloom in late summer. \$7.50

PINK PERFECTION (Cook 42) AM 44. 36". A very popular and most excellent chamois skin pink, with flaring form, heavy substance and lemon beard. \$3.00

PRAIRIE SUNSET (H. Sass 39) Dykes M 43. 34". A very famous blend of apricot, peach, rose, copper and gold. \$1.00

PREMIER PEACH (Hall 46) HM 46. 34". Light creamy peach with tangerine beard from Mr. Hall's Flamingo line. A most reluctant grower with us. \$8.00

RED TORCH (H. Sass 47) HM 47. 35". This rich and brilliant iris we considered the best new thing we saw in 1947. The standards, golden tan; flaring falls of velvety red, without markings. A color jewel, indeed!

\$6.00

REDWARD (Cook 42) HM 45. 34". A brilliant and outstanding crimson-red. Very flaring, a rich and vivid flower of the highest quality.

\$4.00

REMEMBRANCE (Hall 42) AM 44. 38". Excellent pink and yellow blend. Very popular, an iris of fine form and delectable coloring, on a fine stem.

\$2.00

ROCKET (Whiting 45) AM 47. 38". Brilliant new orange-yellow of excellent form and substance on strong well branched stalks. Best with afternoon shade in hot climates, as the falls may bleach.

\$10.00

ROSE BOWL (Milliken 42). 48". A very tall, darker China Maid; lovely and very popular.

\$1.00

ROSE SPLENDOR (Kleinsorge 47) HM 48. 36". A new, very large rose-pink, described as about the color of a ripe watermelon, except for slight coppery tints. A strong grower.
